

## **Computer Service & Computer Repair**

RjPlace System Designs offers *computer service* and *computer repair*, for almost all brands of PC's or personal computers. RjPlace System Designs is *System Builder certified by Microsoft and OEM certified*. RjPlace System Designs offers both onsite and shop service for both warranty and out of warranty computer repair services. Many of our customers are amazed; we can at times complete turnaround within 24 hrs. of pick-up.

At RjPlace System Designs, our computer and PC technicians can help repair computers on networks of all sizes even for standalone computers used by remote workers or small businesses. In addition to A+ certifications, all of our technicians also receive manufacturer specific instruction.
